

# Intro to Linguistics - HW1 - Phonology

Andrew McIsaac

November 1, 2021

1. Are [ç] and [x] allophones of the same phoneme? Why?

Yes, they are allophones as no words are distinguished by just these two sounds.

2. If yes, write a rule realizing that phoneme. If there are alternative formulations, write the simplest one.

/ç/ → [x] after back vowel
